Holiday Party – 12/14/23
Frozen Finger Fun Fly – 1/1/24

Ed Case, Newsletter Editor

Special Election Edition

This is a special edition of the **NCRCC Flyer**. It's special because it's focused on the election of club officers.

Inside, you will find information explaining the election process and – *more importantly* – brief narratives from each of the two nominees for Vice President explaining why they are running for that office and what they will do, if elected. Since we have a contested election, please take the time to read this important information as it impacts the future of NCRCC.

Please also take the time to cast your ballot immediately after receiving it on **12/4/23**.

Watch for the email blast message in your email's inbox (or, God forbid, in your spam folder). Your vote matters!

Along with the information concerning the election of club officers, this edition of the **NCRCC Flyer** also has some other important club information such as the November 2023 meeting minutes, the announcement

of the NCRCC Holiday Party on 12/14/23, club officer reports, etc.

NCRCC General Membership Meeting Minutes – 11/9/2023

The meeting was called to order at 7:08 PM by President Mike Maznicki. The meeting was held at the Somers Public Library in Somers, CT.

Mike welcomed the membership. He announced that this is our final business meeting of 2023. The event scheduled for December is a party, not a business meeting.

Mike asked for any corrections to the October meeting minutes as they appeared in the newsletter sent 11/1/23. There were no corrections offered and a motion was made, seconded, and a vote approved the October 2023 meeting minutes.

President's Report:

Mike Maznicki noted that tonight we are celebrating our designation as an AMA Gold Leader Club. He called attendees' attention to the

NCRCC Flyer – December 2023

sheet cake, plaque, plate, letter, etc. on the table near the entrance. Furthermore, the AMA awarded NCRCC as Club of the Month in November 2023. Lots to celebrate.

Mike announced that Irv Thurrott had agreed to temporarily serve as Activities Director while Peter Tani recovers from his injury.

Mike offered a special shout-out to Ed Case for publishing another great newsletter.

Mike recognized Irv Thurrott, Lloyd Burnham, Kevin Cyr, Dave Arzt, and Neal Caplan for their incredible kindness in tending to Peter Tani since his injury. Details on the extraordinary work performed by this group were noted.

Vice President's Report:

Dave Arzt spoke about a recent visit he and Peter Tani hosted at Crystal Lake in Ellington with the Guidone family where they got a chance to showcase R/C seaplane flying. Lots of great information was provided along with a ride on Dave's boat.

Peter Tani used the opportunity to award solo certificates to two members of the Guidone family. He also recognized Kevin Cyr's role as instructor under the AMA Introductory Pilot Program along with thanking the contributions of equipment from multiple NCRCC members.

Secretary's Report:

Stan Kulesa reported that NCRCC currently has a total of 197 members. There were 38 members and 5 guests attending tonight's meeting. Guests included Vinni Otsuki, Ray Murphy, Michael Booth, Annie Guidone, and Alene Lang.

Stan gave a report regarding the club website. In October, there were 1,284 views (and 395 visitors). He encouraged members to periodically check the website's main page for important club news. Stan reminded the members that the password to access the 'Members Only' section is the same as the gate combination.

Stan announced that the December "meeting" will be our annual Holiday Party and it will be held at the Somers Public Library in Somers on

12/14/23 and that it will begin at 6:00 PM.

Stan reported that the April 2024 meeting will not be on the typical second Thursday of the month because the Somers Public Library conference room will not be available. Instead, our meeting will be held on 4/4/24.

Stan reported that NCRCC's application to restore its tax-exempt status with the IRS remains pending. When we submitted our application in March 2023, the estimated processing time was targeted to be 4 – 6 months.

Stan reported that Irv Thurrott had donated a sound meter to the club. The membership offered Irv its grateful applause.

Stan read a letter from Andy Argenio (AMA District 1 VP) congratulating NCRCC for being designated the AMA Club of the Month for November 2023 out of 2,400 clubs throughout the U.S. Andy also applauded NCRCC's recent designation as a Gold Leader Club, as one of only 10, so designated out of 140 clubs in District 1.

NCRCC Flyer – December 2023

Treasurer's Report:

Len Marchese offered his congratulations to the membership for earning Gold Leader Club status and being designated Club of the Month.

Len reviewed club expenses, income, and balances for the month of October 2023 with the members. He noted that we had used ~96% of the 2023 operating budget to date. Len projected that we will be running a deficit in 2023 once all outstanding invoices for that year are paid.

Len announced that the 2024 membership renewal campaign was recently launched. He asked all members to respond with their renewals as quickly as possible so that the 2024 operating budget can be determined.

Len announced that he is working on the 2024 operating budget and noted that it is contingent upon the actual dollar amount raised from 2024 membership renewal dues.

Activities Director Report:

Peter Tani thanked the membership for their well

wishes following his accident.

Peter reported that the Heli Harvest will take place on 11/11/23. He then invited Ola Nordell to speak about the Frozen Finger event planned for 1/1/24. In his past, Ola noted how this event created some competition for who would get the first flight of the year. He noted that warmer weather was a great concern because of potential damage to the parking area and/or flying field.

Irv Thurrott presented plans for the annual NCRCC Holiday Party at the Somers Library scheduled for 12/14/23.

Irv reported that he will soon be meeting with the head of Hall Memorial Library in Ellington to discuss and plan for a static display of R/C models along with possible additional amenities such as a presentation and simulator opportunities.

Irv noted that in reaction to two NCRCC events this past flying season where other geographically close clubs had conflicting events, steps will be taken to proactively

reach out to these other clubs. Peter reported that he had informal conversations with members of the club in Hadley. Dennis Thibodeau stated that, in years past when he was the Contest Director, he would proactively call club leadership at several local clubs to discuss scheduling and that he never had a problem.

Peter Tani announced that Adam Gorman would be invited to deliver the next presentation of the "speakers series" for the January 2024 meeting held at the Somers Public Library. Tonight's speaker will be Mike Doran.

Liaison Officer Report:
No report.

Field Marshall/Safety Officer Report:

Bob Viering thanked the volunteer mowing crew for an awesome job maintaining the field throughout 2023. The membership offered appreciative applause.

Bob reported that he is working with Tom Munsell to diagnose a problem with the zero-turn mower as it's smoking a lot when started.

The repair will need to be made by a professional and Bob is making that arrangement. Furthermore, Bob will get the tractor to Glen Schlude for its annual maintenance.

Bob mentioned that he's in talks to cut a few trees to the right of the landing approach. Nothing has been finalized.

Bob is planning to post a "No Trespassing" sign on the main gate. He will be dismantling and discarding an old portable toilet.

Bob pleaded with members not to fly alone. He strongly recommended always having at least two adults present while flying. Because of the remoteness of the flying field, the safety risk is mitigated when there is more than one person present and able to react to emergency situations. Bob repeated the slogan, "Fly with a friend".

Bob spoke about practicing safety at our flying field. He asked all members and guests to follow all club and AMA rules with a focus on all flying from the pilot stations, loudly calling landings/take-offs/low fly-bys/flight

direction, following the established traffic pattern, doing all flying in front of the berm by the pilot stations, and loudly announcing when walking onto the runway area.

New Members:

Ray Murphy and Michael Booth presented themselves as prospective members.

Vinni Otsuki was presented for Open Membership. His applications for membership was voted on and approved.

Old Business:

Tom Munsell gave the report of the Nominating Committee. He announced that the following nominations have been made for one-year terms:

- President – Mike Maznicki
- Vice President – Dave Arzt (incumbent)
- Vice President – Buddy Beaudoin
- Secretary – Stan Kulesa
- Treasurer – Len Marchese
- Field Marshall/Safety Officer – Bob Viering
- Activities Director – Peter Tani

- Liaison Officer – Bill Cranford

Tom pointed out that Stan Kulesa will likely not complete his one-year term in the office for which he's been nominated and that anyone interested in serving as Secretary should step forward. Tom also noted that we have a contested election for the office of Vice President. He reviewed with the membership the comprehensive steps and timeframes for the election process. A detailed email outlining the process and dates will be sent to the two nominees. Also, the election process, along with candidate statements, will appear in the December issue of the club newsletter. The election for the office of Vice President will take place between 12/4/23 – 12/11/23.

Mike Maznicki thanked the membership for the work it's done to be recognized as an AMA Leader Club with a gold status. He gave a shout-out to Bob Spooner for personally covering the cost of a two-year subscription to *Model Aviation* magazine for the Somers Public Library.

NCRCC Flyer – December 2023

New Business:

Larry Clark asked about the status of memorial plaques for some recently deceased members. Mike Maznicki explained that we have a moratorium on adding any new plaques until the club decides on its flying site memorial.

Buddy Beaudoin reported that a hunter recently showed up at our flying field to check his equipment. Mike Maznicki explained that the hunter was granted permission years earlier and that he doesn't hunt while flyers are at the field. Mike went on to note that the hunter also helps NCRCC by reporting things that seem to be out of place. Mike then said that if the members don't want the hunter on our property, a vote should be taken. Buddy noted that he didn't want the hunter to be stopped from using the field. Instead, he was raising concern over liability.

Announcements:

Tom Munsell gave a shout-out to our members who are veterans on this upcoming Veteran's Day.

Bob Spooner announced that indoor flying season has begun at the East Windsor

Dome on Fridays between 1:00 PM – 3:00 PM. The fee remains the same as last year.

Dennis Thibodeau advised that there is a rumor that Hog Heaven Hobbies is closing. He went on to note that the rumor is not accurate. The hobby shop is not closing. Dennis also spoke about a flagpole he uses and how that might be a solution for the flying field in Ellington.

Speakers' Series:

Mike Doran gave an excellent presentation on his experience with piloting a commercial jet and how his professional experience translates into his aeromodeling experience. He fielded many questions and comments from the attendees.

The meeting was adjourned at 9:32 PM.

Holiday Party Details

NCRCC is pleased to announce that our

Holiday Party will be held on Thursday (12/14/23) at the Somers Public Library. Festivities will begin at 6:00 PM.

NCRCC will provide pizza, beverages, and plates/napkins/utensils. You are invited to bring along a dessert and/or your favorite signature dish to share with members and guests.

In order for us to order enough food and set up enough chairs, your RSVP is required to attend. If you can attend, please RSVP to Stan Kulesa (Secretary) with your name and the number in your party on or before 12/7/23. You can reach Stan by calling or texting him at (914) 882-7997 or by emailing him at Stanley_kulesa@yahoo.com.

We hope you are able to come and enjoy some holiday cheer with your fellow members of NCRCC!

NCRCC Flyer – December 2023

**From the Field
Marshall / Safety
Officer**

Hello everyone, not much from me this month. All I have is please fly safe this winter and, as always, please fly from behind the pilot stations, fly forward of the berm, follow the traffic pattern, loudly call landings/take offs and low fly-bys, and announce when you step out onto the runway and when it's clear. Thank you all for a great year and have a great holiday season.

Robert Viering, Field Marshal

**From the Liaison
Officer**

Greetings Everyone!

Is it December already? Yes, it is. That's what my calendar says. Honest! This year has certainly zoomed by and NCRCC has no doubt had a very good, busy year as well.

The club events were all well attended by club members, guests, and pilots who made them a total success. The hard work by everyone involved in planning and working the events is greatly appreciated. It has not gone unnoticed. I look forward to many of the same events next year and some new ones on the schedule.

As 2023 comes to a close I will be stepping down as the club Liaison Officer. The two years spent working with the members of the Executive

Committee and club members was an absolute pleasure.

I'm grateful everyone has allowed me to serve and contribute in making NCRCC a leader club and participating—as best as I could—in the philosophy of *"Bringing Modelers Together"*.

I also would like to thank each and every club member for supporting the raffles and the purchases made of club items. These funds are a tremendous help in keeping the club one of the best in the country.

My home for flying and friends is NCRCC. I will always be available to help with events, act as Contest Director, or whatever else is going on. But foremost in my mind is the health of the hobby. Whether it's flying, building, or helping others, it's what we joined the club to do—and I try never to forget that!

I would like to wish everyone Happy Holidays over this season and a joyous, blessed, and prosperous New Year.

John Blossick, Liaison Officer

From the Activities Director

Hello all Thank you NCRCC contest director Ola Nordell for thinking to hosting our first ever NCRCC Frozen Finger Fun Fly, and then with your current ama contest directorship license further securing a Monday, January 1, 2024, event sanction for us all. Ola is no stranger to this event. As a long standing and greatly enjoyed tradition at our neighboring Wintonbury Flying Club, Ola with fellow WFC officers and membership have always had an annual and friendly competition to see who might hold the title of "first to fly" in the new year. With great fondness I remember and with fellow pylon racers we attached skis to our "back-up" racers and then

we flew from the snow. Was just plain fun. Float flyers simply brought their "back-up" float planes that had a set of leaky/ and or well-weathered floats. Recall was "pot - luck" with chili the headliner. Ola noted the holiday season timing had always worked in favor for this event in this one department. Those new to both NCRCC and past regional/ area New Year's Day fun flies are reminded that our access road namely Green Road in Ellington is exactly one mile measured from its intersection with Muddy Brook Road and our facility. As such prospective participants will need to access their ability to make this journey come news year's day. Please note that part of this decision is counter intuitive. If warmer weather or if on the day-of, it then warms up, this makes unimproved road travel more challenging. Please all, keep an eye on our NCRCC "splash page" for the latest event status especially when close in. This is most important considering the

unpredictable nature of New England weather and the relative newness of our NCRCC 2024 Frozen Finger Fun Fly event. ----- Always like it when a plan comes together. This past summer, namely on Saturday, August 12, 2023, NCRCC had a club wide "Try and Fly Event" where we invited folks to come to our NCRCC flying field and learn how to fly R/C model aircraft. In addition to a well-represented RC static aircraft display and spectacular midday flight demonstrations, our past August event included 1) ground school training, 2) simulator training, and 3) buddy-box assisted in-flight training. With lunch. Thanks to all that helped make this possible. Special thanks to NCRCC event organizers Bob Martin and Stan Kulesa. Great thanks to all remaining club volunteers without which our first annual "Try and Fly" event would not have been possible. Thanks again to pilots Bill Glode, Ron Vernier and Jessica Haxhi for your time, courage and especially poise while

NCRCC Flyer – December 2023

assisting our students during in-flight training; and to Ralph Rinaldi for your skill and great overall technical expertise. Especially in setting up our greatly improved and now "wireless" buddy box communications. For me, it is the "direct evidence" of the power of community and shared effort that makes this type of effort worthwhile. Thank you past NCRCC president Kevin Cyr for taking responsible charge of instructing the four junior members of the Guidone family that attended this past and then August 2023 event. Thank you again to past NCRCC president Jessica Haxhi for extended a helping hand to yet other family in attendance whose names I cannot remember. Most importantly, congratulations to now 2023 NCRCC members Asher and Phoenix Guidone for attaining your respective individual solo certificates. It was a pleasure, with our NCRCC president and chief instructor to have awarded them. Continued fun and success to you both

especially during the continued outings that I am aware of and with Kevin Cyr, as Asher and Phoenix hone their present flight skills. Above all, please all: Mark your 2024 calendars with our current "Try and Fly Event". And please all also note the new event month of "May". Namely: Date: 5/18/24, Rain Date: 5/19/24, Start Time: 9:00 AM. Short Post Script: Please be on the "look-out" for a future NCRCC 2023 holiday party Email blast message slated to be sent out on the Sunday immediately following Thanksgiving. Thanks all in advance. Here is a list of one published 2023 and several published 2024 events that I was able to find at the time of my writing: 2023 Holiday Party: Thursday, December 14, 2023 at Somers Public Library Details on splash page: <https://ncrcc.org/Frozen Finger Fun Fly>: Monday, January 1, 2024 <https://www.modelaircraft.org/events/frozen-finger-fly-0> Try-N-Fly Event: Saturday, May 18, 2024/ Rain Date Sunday, May 19, 2024

NCRCC Building Contest (club-only event): Thursday, May 9, 2024/ Rain Date: TBD (Both above month of May events at) <https://ncrcc.org/ncrcc-event-calender/> Biplane Bash: Saturday, June 8, 2024/ Rain Date: Sunday, June 9, 2024 <https://www.modelaircraft.org/events/biplane-bash-0> Dawn Patrol Over Green Road Sector: Saturday, July 13, 2024/ Rain Date: Sunday, July 14, 2024 <https://www.modelaircraft.org/events/dawn-patrol-over-green-road-sector> War Birds Over Ellington: Saturday, September 14, 2024 / Rain Date: Sunday, September 15, 2024 <https://www.modelaircraft.org/events/war-birds-over-ellington-1> That's it for now.

Peter Tani, Activities Director

NCRCC Flyer – December 2023

From the Treasurer

Well, Thanksgiving is now behind us, and we are now gearing for the upcoming holidays.

If you have not renewed your 2024 membership, a reminder letter will be mailed on or before December 15, 2023. If you have not renewed, please do so as soon as possible. Your 2024 membership renewals are solely used for our 2024 seasonal budget. Without your renewal some items may be deleted, or waylaid to a future date. So, get those renewals in as soon as possible.

I want to take this time to congratulate the entire

Board of Directors and their support to the Executive Board, it was nothing short of 100% support. To the Executive Committee thank you for your outstanding support and effort to the club and all members. Looking forward to 2024.

To all NCRCC members, without you we would not be “Gold Star” flying club. Thank you for your support and understanding in the day-to-day business.

The ground crew who maintained our beautiful field did an outstanding job not only for our flyers but also the NCRCC events. Each event for 2023 was nothing short of a huge success and we are looking forward to 2024.

To all, Happy Holidays, Merry Christmas, and Happy New Year.

See you at the Holiday party at Somers Library.

Len Marchese
NCRCC, Treasurer

Ellington Library Exhibition

by Bob LaFlamme

Some time ago, a very long time ago in 2004, NCRCC partnered with the Ellington Library for an exhibit of model aircraft to commemorate the 100th Anniversary of Flight.

NCRCC members graciously loaned approximately 30 aircraft to display for 8 weeks (about 2 months) during winter months. There were 12 giant scale, four models were hung in each of the 1st and second floor skylights with the rest of them scattered about the ceiling. It made an impressive display. Each model had a placard on the landing gear with information about the model and full-size aircraft (if applicable). There was a handout with pictures and more detailed info about each so patrons could walk around and identify them.

Not only was it a terrific way to educate people about

NCRCC Flyer – December 2023

model aircraft and build community goodwill, but it also solved the winter storage problem for some...

When people came into the library, they were greeted by about a dozen smaller models hanging in the foyer, leading to an impressive array of giant-scale aircraft gently swaying in the breeze in the main hall.

During the 8 weeks (about 2 months) of the previous exhibition, I spent quite a few nights at the library answering questions and talking about the models. People were extremely impressed with the models.

For this exhibition, we were asked to present some weekend sessions, aka what was done at the try and fly. Flight simulators, demonstrations of aircraft operation control surfaces and some hands on with models would make a good impression. We envision four of these on Saturdays.

A slideshow of the previous display is available on my

website at

<https://www.w1sq.net>

Right now, we have tentative commitments for 20 aircraft and are looking for more. We would like about 10-15 more including a few giant scale and a turbine or two.

The exhibit will be installed at the end of December or beginning of January and will run through the end of February. Dates are tentative at this point.

If you are interested in participating, please contact Bob LaFlamme via email at w1sqfn31@gmail.com or call 860-748-9618.

You will be receiving an email blast with a link where you can respond and list the models you are willing to lend.

Thank you for your consideration.

The Election Process

In accordance with its by-laws, NCRCC is conducting an election of its club officers. The positions up for election include the

seven members of the Executive Committee which consists of the President, Vice President, Secretary, Treasurer, Activities Director, Liaison Officer, and the Field Marshall/Safety Officer. Please refer to the club by-laws for a description of each of these roles. The by-laws can be found on the club website under the 'Members Only' tab. The password to access this section of the website is the same as the combination to the gate lock.

The three members of the NCRCC Board of Directors are not up for re-election this year.

The Nominating Committee has presented the following slate of candidates to the membership for the Executive Committee (*one-year term*):

- President – Mike Maznicki
- Vice President – Dave Arzt (incumbent)

NCRCC Flyer – December 2023

- Vice President – Buddy Beaudoin
- Secretary – Stan Kulesa
- Treasurer – Len Marchese
- Activities Director – Peter Tani
- Liaison Officer – Bill Cranford
- Field Marshall/Safety Officer – Bob Viering

As you can see, we have a **contested** election for the Vice President. In other words, NCRCC members will be asked to vote for one of the two nominees for Vice President. The other club officer positions are **not being contested**.

The nominees for the **contested** election were invited to submit a photo and a brief narrative describing why they want the position for which they've been nominated and what their plan is, if elected. You'll find these inside this edition of the club newsletter. Please take the time to read their

messages before casting your vote.

The nominees for club officer positions that are **not being contested** will not be providing a photo or brief narrative.

An electronic ballot for the **contested** nominations will be emailed on or about 12/4/23 to all members for use in casting their vote. Members are being urged to cast their vote immediately upon receipt of their ballot. All ballots **MUST** be received by no later than 12/11/23. (Please note that we have three members who do not have email. Those three members will be sent a paper ballot via US Mail.)

The vote for the club officer positions that are **not being contested** will be held using a hand-count vote during the January meeting (1/11/24).

Ballots will be counted by a three-person ad hoc committee appointed by

the Executive Committee and reported to the membership during the January meeting. A simple majority will determine the winner.

Newly-elected club officers will assume their roles effective immediately once the voting results are announced by the three-person ad hoc committee during the January meeting.

NCRCC Flyer – December 2023

Nominee Statement - *Dave Arzt (incumbent)*

Hello NCRCC members. I am seeking your vote to represent you as Vice President of NCRCC.

Professional Background: I have over 45 years of experience as a Civil Engineer licensed in the State of Connecticut and several other states. Projects included all aspects of civil engineering and project management with particular expertise in hydraulics, drainage and bridge scour.

Community Service:
Crystal Lake Association:
Board of Directors for 5 years
and President since 2015.

Working to protect, preserve and enhance the lake and helped to secure \$40,000 funding to repair the dam that the Town Engineer stated was in a “state of gradual failure”.

Town of Ellington – Ad Hoc Milfoil Committee: Chairman since inception in 2009. Responsible for managing the Town’s \$60,000 annual budget to monitor water quality and plant growth. Hire contractors for water quality work and to annually remove invasive plants. Secure DEEP and ARPA Grants for the Town.

NCRCC:

- Joined in 2005
- Vice President since July 2023
- Attend ALL monthly meetings and club functions, as schedule permits
- Perform annual audits of the club’s finances since 2007
- Provide four annual Float Flys at my Ellington home on Crystal Lake since 2010. Open to all NCRCC members.

No landing fees.
Lunch provided.

- Coordinate Float Flys with NCRCC events and NEDS (Mansfield) / Yankee Flyers (Thompson) Float Flys
- AMA Introductory Pilot Program Instructor since 2013
- Board of Directors: 2012 – 2022
- STEM: Member of Ellington STEM (terminated by COVID), assisted with Western New England University (WNEU) program, attended Try & Fly
- 2022 Member of ad hoc committee to tally election ballots
- Secured donation of four aircraft to WNEU from the Estate of Charlie Meserve
- Familiar and conversant with the electronic media that NCRCC uses to disseminate club information
- Good working relationship with current NCRCC

NCRCC Flyer – December 2023

Executive Committee
and NCRCC members

My plan, if re-elected:

If re-elected as your Vice President, my priorities will be to improve membership communication, maintain the safety, security and viability of our Green Road flying site, advance sound financial decisions, vigorously promote and protect our hobby and help introduce the sport of aeromodelling to new and young members.

My working relationship with the Town of Ellington staff and elected officials will help promote our standing in the community.

I believe that my NCRCC and lifelong accomplishments demonstrate that I possess the qualities needed to assist in leading NCRCC into the future as a Gold Leader Club.

NCRCC Flyer – December 2023

Nominee Statement – Guy (Bud) Beaudoin Jr

Dear NCRCC members,

My name is Guy Beaudoin Jr (Bud) and I am running for Vice President of the club. I first became a member in the 70s with my father who taught me how to fly. I am an active pilot who is involved in all of the club's events. As many of you have often seen me at the field, you have witnessed that I am active in several different segments of the hobby such as pylon racing, sport flying, EDF jets, turbine jets, indoor flying, helicopters, scale, float flying and new pilot training.

If you vote me in as the Vice President, I am determined to represent all club members and minimize decisions being made for you. Communication, dialog and passion for this hobby are my strongest assets.

Some of my most recent contributions to the club include:

- Currently on the Board of Directors
- Chair of the tree removal committee that delivered 5 competitive quotes to the Executive Committee
- Member of the committee tasked with by-laws revisions
- Contest Director for spring 2023 swap meet
- Will work closely with the 2024 Contest Director of the Dawn Patrol and Biplane Bash events
- Completed 2023 full aeration/overseeding of field for turf restoration

As your Vice President, I know I can make a positive impact in our club by giving you a much stronger voice and representation than you

have today. I frequent the field several times a week and know how many of you are feeling about the state of the club. If you have met me, then you already know how much I welcome discussing club business with you at any time. You will not find anyone more approachable and willing to discuss any subject.

I humbly ask for your vote and the honor to represent you, the membership, in 2024.

Respectfully,

Guy Beaudoin Jr

NCRCC Flyer – December 2023

Northern Connecticut Radio Control Club

FROZEN FINGER FUN FLY,

1ST ANNUAL FROZEN FINGER FUN FLY MONDAY, JANUARY 1, 2024
9:00 – 1:00 (OR AS LONG AS YOU CAN STAND IT) AT THE FIELD

BE FIRST TO FLY IN THE NEW YEAR!!!
